

What is Dropbox Business?

Dropbox Business is a powerful collaboration platform layered with robust admin features that allows your team to securely access and share their most important content at work. Over **400 million users** and **150,000 businesses** trust Dropbox to reliably sync their files and photos.

Empower your team

Use the tools they love

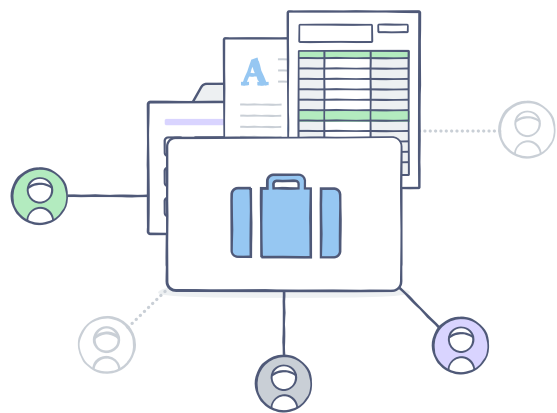

- Works across all devices and platforms
- Integrates with Salesforce, Microsoft and over 300K other applications your team relies on for work

Be more productive

- With just a click, share files and folders with editable or view-only access
- Collaborate easily with internal and external teams

Work on the go

- Works offline and in areas with limited internet connectivity

Have peace of mind

- The admin console gives you control and visibility over company data
- Comes with as much space as your team needs, so storage is never an issue
- Unlimited version history means you won't waste time trying to recover lost files
- Two-factor authentication and SSO integration keep accounts secure
- Team members can easily switch between Dropbox accounts to keep work and personal files separate
